8140 MAGNETIC FIELD VIEWING FILM
Magnetic viewing film is made up of millions of tiny magnetic flakes suspended in clear oil. The oil is then sandwiched between two sheets of clear plastic. Place magnet near film to 'see' the magnetisation. Reset by shaking film.

\$8.25

8151 FERRITE EDUCATIONAL KIT
Contains magnetic blocks of different shapes & sizes, to aid in the learning and understanding of magnetism. The kit also includes a pouch of iron filings.

\$ 6.00

8300 TELESCOPIC AERIAL MAGNET
Ideal for picking up staples, paperclips, nails and screws from difficult to reach places! This strong little magnetic aerial extends up to 65cm long, and has a clip for securing to pockets. Your company name can be added for promotional purposes.

\$ 4.40

8090 MAGNETIC PICK-UP ROD
Improve the safety and cleanliness of your workplace environment! Protect your employees from injury by aiding the quick pickup and safe disposal of metal filings, loose nails & screws, sharp metallic off-cuts, spent firearm shells, and steel/iron swarf.

\$ 87.50

8076 MAGNETIC LATCH
A magnetic latch for cabinets, doors and cupboards, with a matching plate and 4.7mm centre hole. Dimensions 25mm long x 20mm wide x 8.0mm thick.

\$ 2.00

81101 MAGNETIC KNIFE & TOOL HOLDERS
535mm long, 35mm wide stainless steel finish, (slightly scuffed) this unit is a hygienic & aesthetic way to quickly store & access utensils and tools. Widely used in households, commercial kitchens, garages, workshops, & industrial factories. **AVAILABLE ONLY ONLINE**

\$ 15.00

8305 KEYCHAIN MAGNET
Test the quality of waste metal with this powerful keychain magnet. Identify salvageable material in cases where scrap metal can potentially be recycled.

\$ 10.00

8410 NAMETAG BADGES
Avoid pin-hole damage to clothes and uniforms with magnetic nametags. The front piece is self-adhesive, so new or existing badges can be simply and easily stuck onto the plate. This will greatly improve the lifespan of employee nametags.

\$ 2.20

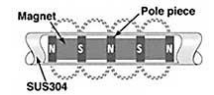

6100 MAGNETIC TUBES
Catch metal contamination from dry particulates, liquids & slurries. These magnetic tubes (diameter 25.4mm) have high gauss, with M8 tapped ends. Stainless-steel, fully welded construction. Max operating temp 80°C

RARE EARTH Rare Earth is the most powerful type of magnet. It is extremely powerful at the surface point. It has a glossy silver nickel coating.

Ferrite is heavier with a wide depth of field, and can withstand higher operating temperatures. It is a solid, dark-grey magnet (often used as craft magnets).

ALNICO Alnico is a durable magnet made of cast steel with a lower magnetic field depth, and can withstand temperatures in excess of 550°C.

This material is a versatile form of rubber impregnated with magnetised iron, easy to cut, & has a wide variety of uses!
